

DATUM ENGINEERING
SUPPLIES PTY LTD

PowerMill90 7690VA12 90° milling

STELLRAM[®]

**70% INCREASED FEED RATE • 100% INCREASED DEPTH OF CUT
• ALL WITH EXTENDED TOOL LIFE • INCREASED PRODUCTIVITY**

PERFORMANCE FEATURES

- 90° approach angle for accurate shoulder, slot and pocket milling.
- 12mm cutting depth: high feed rate with a compact design.
- Choice of two body styles: standard and close pitch.
- High metal removal capability and excellent surface finish.
- 4mm thick inserts for greater security in difficult applications.
- Through coolant for optimum chip evacuation.
- Positive soft cutting geometry for better power utilisation.
- Precision sintered effective insert.
- Ground facet for good surface finish at high feeds.
